presents a selection of forty six readings that provide an introduction to the sociological perspective look at how sociologists conduct research examine the cultural underpinnings of social life and discuss social groups and social structure gender and sexuality deviance and social stratification institutions and change

for thirty five years and through thirteen editions jim henslin s down to earth sociology has opened new windows onto the social realities that shape our world now in its fourteenth edition the most popular anthology in sociology includes new articles on our changing world while also retaining its classic must read essays focusing on social interaction in everyday life the forty six selections bring students face to face with the twin projects of contemporary sociology understanding the individual s experience of society and analyzing social structure the fourteenth edition s exceptional new readings include selections on the role of sympathy in everyday life mistaken perceptions of the american family the effects of a criminal record on getting a job and the major social trends affecting our future together with these essential new articles the selections by peter berger herbert gans erving goffman donna eder zella luria c wright mills deborah tannen barrie thorne sidney katz philip zimbardo and many others provide firsthand reporting that gives students a sense of being there henslin also explains basic methods of social research providing insight into how sociologists explore the social world the selections in down to earth sociology highlight the most significant themes of contemporary sociology ranging from the sociology of gender power politics and religion to the contemporary crises of racial tension crime rape poverty and homelessness

unlike other texts for undergraduate sociological social psychology courses this text presents the three distinct traditions or faces in sociological social psychology symbolic interactionism social structure and personality and group processes and structures and emphasizes the different theoretical frameworks within which social psychological analyses are conducted within each research tradition with this approach the authors make clear the link between face of sociological social psychology theory and methodology thus students gain an appreciably better understanding of the field of sociological social psychology how and why social psychologists trained in sociology ask particular kinds of questions the types of research they are involved in and how their findings have been or can be applied to contemporary societal patterns and problems great writing makes this approach successful and interesting for students resulting in a richer more powerful course experience a website offers instructors high quality support material written by the authors which you will appreciate and value

valuable practical advice for managing classrooms workloads and careers non tenure track lecturers and adjunct instructors face particular challenges at us colleges including heavy teaching loads lack of office space little control over the selection of course topics or textbooks and long commutes between jobs at two or more schools quick hits for adjunct faculty and lecturers contains short practice oriented articles by experienced instructors that offer

valuable teaching and career tips for balancing competing demands addressing student issues managing classrooms and enhancing professional development

the book presents an overview and historic perspectives of a novel scientific field coming of age today coastal and ocean management it covers diverse and changing issues ranging from conflict resolution to governance and ethical political imperatives natural disasters and climate change culminating in coastal and ocean typologies the basis for a future theory of coasts and oceans eighteen chapters written by two main authors in cooperation with international experts review 25 years of research the authors address challenges to society related to global change issues that have been generated by human activity in both temperate sweden germany and the united states and tropical regions brazil indonesia ultimately the book documents the maturation of a field and responds to changing societal needs and scientific outlooks it gathers recent analyses along with important earlier research with a foreword by biliana cicin sain and richard delaney globally renowned as coastal and ocean experts in theory and practice its broad approach makes the book a must read for graduate and postgraduate students as well as coastal management and marine spatial planning practitioners and for researchers in the fields of geography anthropology history of science human and social ecology and environmental and development studies

how do people work together to advance human rights do people form groups to prevent human rights from being enforced why in what ways do circumstances matter to the work of individuals collectively working to shape human rights practices human society is made of individuals within contexts tectonic plates not of the earth s crust but of groups and individuals who scrape and shift as we bump along competing for scarce resources and getting along these movements large and small are the products of actions individuals take in communities within families and legal structures these individuals are able to live longer yet continue to remain vulnerable to dangers arising from the environment substances struggles for power and a failure to understand that in most ways we are the same as our neighbors yet it is because we live together in layers of diverse communities that we want our ability to speak to be unhindered by others use spirituality to help us understand ourselves and others possess a space and objects that are ours alone and join with groups that share our values and interests including circumstances where we do not know who our fellow neighbor is for this reason sociologists have identified the importance of movements and change in human societies when we collaborate in groups individuals can change the contours of their daily lives within this book you will find the building blocks for human rights in our communities to understand why sometimes we enjoy human rights and other times we experience

vulnerability and risk sociologists seek to understand the individual within her context bringing together prominent sociologists to grapple with these questions movements for human rights locally and globally offers insights into the ways that people move for and against human rights
