this is the first book to combine an authoritative history of the star trek franchise including all six television series and eleven feature films with anecdotes about the show from those who helped shape it from the outside in the fans star trek expert robert greenberger covers everything from show creator gene roddenberry's initial plans for a series combining science fiction and western elements the premiere of the original series in 1966 its cancellation the franchise's return in an animated series and its subsequent history on television and film up to expectations for the 2013 j j abrams film along the way greenberger analyzes star trek's unique cultural impact and tremendous cult following including the famous and first ever save the show mail campaign but this isn't a sugarcoated history this book chronicles the missteps as well as the achievements of roddenberry and others behind the franchise approximately two dozen sidebars provide personal experiences of dedicated trekkies who influenced or became a part of the franchise star trek fandom is unparalleled in the effects it has had on the franchise itself the book is illustrated with a large collection of photographs of memorabilia many of which have never been seen before in print

captain kirk is torn from his timeline every corner he turns every door he opens throws him into a different day a different year and a different danger

a chance encounter with a drifting ship leads the crew of the enterprise to a world where the most obscene thing imaginable is the human face captain kirk must face the greatest test of his belief in the prime directive

john byrne continues his new star trek photonovel adventures with made out of mudd harry mudd has gotten under jim kirk's skin before but never quite like this alien artifacts klingons and a mad man's schemes add up to headaches for the captain and his crew all that plus tribbles

we watch tv on computers phones and other mobile devices television is now online as much as it is on air television and new media introduces readers to the ways that new media technologies have transformed contemporary broadcast television production scheduling distribution and reception practices drawing upon recent examples including lost 24 and heroes this book examines the ways that television programming has changed transforming nearly every tv series into a franchise whose on air online and on mobile elements are created simultaneously and held together through a combination of transmedia marketing and storytelling television studios strive to keep their audiences in constant interaction with elements of the show franchise in between airings not only to boost ratings but also to move viewers through the different divisions of a media conglomerate organized around key industrial terms platforming networking tracking timeshifting placeshifting schedule shifting micro segmenting and channel branding this book is essential for understanding how creative and industrial forces have worked together to transform the way we watch tv

all new feature length tales set in the star trek the original series universe done in a unique one of a kind photomontage style this volume collects the stories swarm the hidden face sam and the never collected before short story more the serpent than the dove collects issues 12 14

despite the growing importance of economics in our lives literary scholars have long been reluctant to consider economic issues as they examine key texts this volume seeks to fill one of these conspicuous gaps in the critical literature by focusing on various connections between science fiction and economics with some attention to related fields such as politics and government its seventeen contributors include five award winning scholars five science fiction writers and a widely published economist three topics are covered what noted science fiction writers like robert a heinlein frank herbert and kim stanley robinson have had to say about our economic and political future how the competitive and ever changing publishing marketplace has affected the growth and development of science fiction from the nineteenth century to today and how the scholars who examine science fiction have themselves been influenced by the economics of academia although the essays focus primarily on american science fiction the traditions of russian and chinese science fiction are also examined a comprehensive bibliography of works related to science fiction and economics will assist other readers and critics who are interested in this subject

presenting all new tales set in the star trek the original series universe done in a unique photomontage style using images from the classic tv series it s as close as fans will ever come to getting new episodes featuring the original cast features the stories the enemy of my enemy an unexpected yesterday and a reinterpretation and adaptation of the tv episode the cage

important american periodical dating back to 1850

following up on last years hugely successful strange new worlds photonovel john byrne once again sets sail aboard the starship enterprise this time with an ongoing bi monthly series that begins by going through the looking glass to tell the story of what happened after the classic mirror mirror episode of the original series the crew discovers two strangers in their midst and quickly learns that one has made a pact with one of james kirk s oldest foes the mirror cracked is the title and the action unfolds today
